Will you please put someone on the phone with me, or pass me off to HQ to do the nonresponsive canned statement routine again? I'm not going to participate in that tactic anymore.

You may know that I've filed a couple FOIAs to figure out what you guys are up to with extending the public comment period on Pavillion. I never got an answer from you on what happened with any peer review, and everybody in Wyoming and at Encana remains at a loss why EPA extended the comment period.

I hope you're not surprised I've come to the conclusion that FOIAs may be more productive than trying to get straightforward answers from EPA these days .

Anyway, I didn't call David about Pavillion. If you could please put somebody on the phone to talk about the fine against Dyno-Nobel a couple years ago, and share documents showing specifically what happened with that investigation, that would be helpful. I note that David previously talked to the Wyoming Tribune Eagle.

Thanks,

Mead

I left him a vm, indicated if he's in to give me a call. Will need to know what info you need. I'm here for another hour. We have 1-2 others who do what he does.

Hi Rich. I've left a couple messages for David Cobb. Is he around, do you know?

Thanks,
